SUPPLEMENTARY INFORMATION
FOR
LEGISLATIVE REVIEW

2006 - 2007 ESTIMATES OF EXPENDITURE

PREFACE

The information contained in this document is aimed at assisting members of the Legislature in their review of service headings included in Enabling Appropriations and Other Appropriations in the 2006/07 Estimates of Expenditure tabled on March 6, 2006.

Enabling Appropriations

Enabling Appropriations is a collection of service headings that exist to provide expenditure authority for programs that are delivered by a number of departments or other government units, where it is desirable to know the total amount allocated to the program, or where the allocation is not known at the time of printing of the estimates. These programs are not inter-related.

Funds voted in these enabling appropriations can be administered in two ways. In some cases funding is allocated, as required, from the enabling appropriation to the delivery unit. Authority to make allocations from enabling appropriations to program appropriations is granted to the Minister of Finance under section 33 of *The Financial Administration Act* (1997). This results in all of the expenditures being reflected in the delivery unit. An example of this is the Enabling Vote. In other situations, departments are granted authority to charge approved expenditures directly to the enabling appropriation. The Sustainable Development Innovations Fund is handled in this manner.

Other Appropriations

Other Appropriations is made up of service headings that are not specific to any one department. Delivery departments or other government units are granted authority to either charge approved expenditures directly to the appropriation, or to recover expenditures from the appropriation. Therefore, all expenditures are reflected against the service heading. An example of this is Emergency Expenditures. Again, these programs are not inter-related.

A number of these service headings have separate reports or are included in the estimates supplements of departments that manage the service heading. The following table identifies all of the programs included in Enabling Appropriations and Other Appropriations, and where the estimates supplement for each program can be found.
